

# Targeted Early Intervention

## Discover the Targeted Early Intervention Program

Welcome to the Targeted Early Intervention (TEI) Program - a compassionate initiative dedicated to uplifting children, young people and their families. Our Mission is to identify and address challenges early on, fostering resilience and preventing more serious issues down the line.

### Vision and Objectives:

- **Enhancing Well-being:** we strive to promote the holistic development of young children and young people, nurturing their potential.
- **Empowering Families:** Our goal is to strengthen family units and communities, creating a supportive environment for growth.
- **Timely Support:** We provide effective and accessible resources and accessible resources to those at risk of harm or disadvantage, ensuring no one faces their struggles alone.

### Who can Benefit from the (TEI) Targeted Early Intervention Program?

Our services are tailored for:

- Children aged 0-18 years.
- Families navigating challenges such as mental health concerns, domestic/family violence, substance abuse, or financial stress.
- Aboriginal and Torres Strait Islander families.
